Re: FY2022 Proposed General Fund Budget

The proposed budget totals \$2,053,989, a 11% increase over the current budget. Below are the contributing factors:

General Fund Revenues

- Preliminary taxable values total \$205,567,337, an increase of 6.47%. Calculated at the current millage rate of 6.5452, ad-valorem tax will generate \$1,278,205 in revenue, an additional \$67,616 over the current year.
- Total budgeted revenues include \$135k of coronavirus local fiscal recovery funds and \$84,099 of restricted discretionary sales surtax funds (penny sales tax) to be applied toward the power and telecommunication lines undergrounding capital project.
- Annual Operating Transfer from the Utility Fund has been adjusted to \$407k per the draft rate study, a decrease of approximately \$59k due to a revision in the calculation recommended by the Village Rate Consultants.

General Fund Expenditures

- A portion of administrative salaries have been allocated to the Building Activities Fund. Personnel costs include a 5% performance increase as well as a one-time 4% premium pay adjustment for essential worker performed throughout the pandemic.
- 25% of the existing security services contract has been allocated to the Building Activities Fund causing a reduction within the Public Safety department of \$147k or 27%, due to increased patrols and personnel during construction season.
- Grounds Maintenance and Fire Rescue contracts have been adjusted accordingly, resulting in a combined \$44k increase.

- Capital Outlay represents the remaining share of the undergrounding project cost, \$395k.

Utility Fund Revenues

- Water and Sewer revenue has been increased by 10% and 12% respectively per the revenue sufficiency study conducted. This increase generates an additional \$247k.
- Total revenues include anticipated loan proceeds of \$2.5m required to meet capital funding needs as outlined in the study.

Utility Fund Expenses

- Professional fees were reduced by approximately \$68k. The reduction is based on completed studies (i.e., rate study, capital improvement program, membrane evaluation).
- Repairs and maintenance have been increased to capture ongoing repairs. This number may be adjusted, depending on capital improvement projects.
