

Storm Preparedness

Be Prepared

It is everyone's responsibility to be prepared in case a storm or other disasters hit. Government alone cannot begin to handle all of the adverse impacts. It is up to each and every resident to have plans in place and make sure homes are as secure as possible.

Have A Plan!

The most important thing that can be done is to create an emergency plan. It is easy and can be done online at: www.floridadisaster.org. The appropriate action to take is to begin planning now for all type of disaster.

What you Need to Know

Important information about what to do before, during and after a storm is located here. Click the menu tabs on this page for more information.
